

**#29 SHINING MOUNTAIN LIKE IKE**

05-94556 Ike is a good looking, solid, well put together 4 year old sorrel gelding of about 15+h. He has a great disposition, and can move out with the best. Very smooth and easy to ride. N.J has been using Ike to work the colts off of, flagging them, etc. He does anything we ask of him. Very good mind. This guy will make a mountain and trail horse deluxe!

THIS IS OUR STAR GELDING !

**SHINING MOUNTAIN RANCH**

We have ridden in the mountains for the past 30 years. Val has ridden since she was (a long time ago) Jay started after Val bought him his first horse for their 1st anniversary. Age and bad ankles made horses a reality for hunting. Before moving to Wyoming, we had most Quarter Horses, Arabs and mixes, always raising a few foals. Upon moving to Wyoming, we tried our first gaited horse, and were hooked. Wondered why we hadn't gotten there sooner. Having the room, we started to build our Foxtrotter herd. We found the best bred stock we could that also exemplifies our desire for a good, sound, smooth, easy to get along with trail horse. We showed some for about 5 years. Val won 5 World Championships with Santa Fe Sunrise, including World Grand Champion Western Pleasure. Any horse we ever entered in the Celebration came home with a place. It takes a lot of work, and much of the training is contrary to what we want to ride in the mountains. We have concentrated on our breeding program to produce quality riding and using horses that are good looking , and give the rider a smooth ride. We are presently cutting back in numbers, as Jay has finally hit retirement age. He would like to spend his time touring the country in a motor home (just kidding). He really wants more time to spend in the mountains, and in the country we both love. We hope we can share the quality of our horses with others, and give them the same great experience of riding quality Missouri Foxtrotters bred for the mountains, ranch raised and trained for what we do most.
